Reorder No.: CLW-1007-A01
umbili-CUTTER

umbili-CUTTER

**Sterilized, Safe, Single Patient Use
Umbilical Cord Clamp Cutter**

The Divergent **umbili-CUTTER** is an individually packaged, sterile, disposable umbilical cord clamp cutter. With its unique head design, our essential cutting tool facilitates the safe removal of most umbilical clamps including those that utilize umbilical-style RFID tags.

NEW for 2022: our latest design now includes an improved, **No-Slip Grip** to help ensure healthcare professionals safer and more reliable control when removing umbilical cord clamps from patients.

Newly designed No-Slip Grip

This FDA Class I registered device features a concealed cutting surface for safety, and costs 30–70% less than comparable products. Always in stock!
